

## Equipping Great Providers

OPRA exists to build and serve a community of great providers. Great providers are informed, prepared, and supported. They have access to timely information, practical guidance, and trusted expertise to navigate change, solve problems, and deliver high-quality services in an increasingly complex system. That's why **Resources** is a core part of how OPRA does its work through CARE: **Community. Advocacy. Resources. Experiences.**

### WHY OPRA? RESOURCES.

Timely updates, in-depth guidance, and direct access to subject-matter experts equip providers with the tools and knowledge they need to respond to change, make informed decisions, and strengthen service delivery. In a system where expectations shift quickly and clarity is often hard to find, OPRA helps providers move forward with confidence. When providers join OPRA, they gain more than information—they gain a trusted partner to help navigate complexity and build toward what's next.

### Experience OPRA's Resources: Before You Decide

During the month of March, prospective members are invited to join Friday Five calls with no membership commitment required. Contact [Sonya Summers](#) to participate.

**Join the OPRA community.  
Get tools. Get support. Get connected**

"Your willingness—as individuals and as a cohesive team—to help not just providers, but the industry as a whole, is something that should be modeled as true innovation and leadership. OPRA's ability to keep up with and lead change is one of your strongest attributes." - OPRA member
